Avg User rating

Larger Game Sizes: Games with higher sizes might suggest that these types of games require more resources (e.g., high-quality graphics, complex mechanics).

High Price: If certain games or apps have a higher price, it might indicate that users are willing to pay more for apps in those genres or games

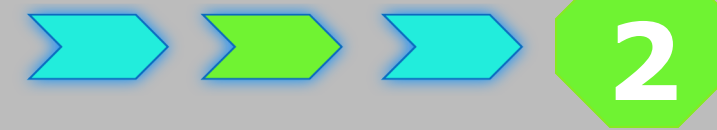

Smaller Game Sizes: Games with smaller sizes might suggest that these types of games are less resource-intensive or simpler in design.

Low Price: Conversely, apps or games with lower prices might suggest that users are less willing to pay a premium, or that there's more competition driving prices down.

Top Games by User ratings

Name	Icon URL	Developer	Size in GB	Paid / Free	Price (USD)	Top user rating count	Rating
Boom Beach		Supercell	0.19	Free	\$0	400.79K	4.50
Cash, Inc. Fame & Fortune Game		Lion Studios	0.23	Free	\$0	374.77K	5.00
Clash of Clans		Supercell	0.15	Free	\$0	3,032.73K	4.50
Clash Royale		Supercell	0.14	Free	\$0	1,277.10K	4.50
